APPENDIX

VI

Interim Evaluation of the Regional Educational Laboratories Reporting Format for Final Individual Written Evaluation

- I. Overview of Activities
- II. Implementation and Management
 - A. To what extent is the REL doing what they were approved to do during their first three contract years?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
 - B. To what extent is the REL using a self-monitoring process to plan and adapt activities in response to feedback and customer needs?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
- III. Quality
 - A. To what extent is the REL developing high quality products and services?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
- IV. Utility
 - A. To what extent are the products and services provided by the Laboratory useful to and used by customers?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
 - B. To what extent is the REL focused on customer needs?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
- V. Outcomes and Impact
 - A. To what extent is the REL's work contributing to improved student success, particularly in intensive implementation sites?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
 - B. To what extent does the Laboratory assist states and localities to implement comprehensive school improvement strategies?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
 - C. To what extent has the REL made progress in establishing a regional and national reputation in its specialty area?
 - 1. Strengths
 - 2. Areas of needed improvement
 - 3. Recommendations for improvement
- VI. Overall Evaluation of Total Laboratory Programs, Products and Services
- VII. Broad Summary of Strengths, Areas for Improvement, and Strategies for Improvement

** Supporting narrative with specific examples should be provided in each section based on the signature works, other selected outputs and materials on Lab operations reviewed.
